# 2. Satellite model as a visualization method

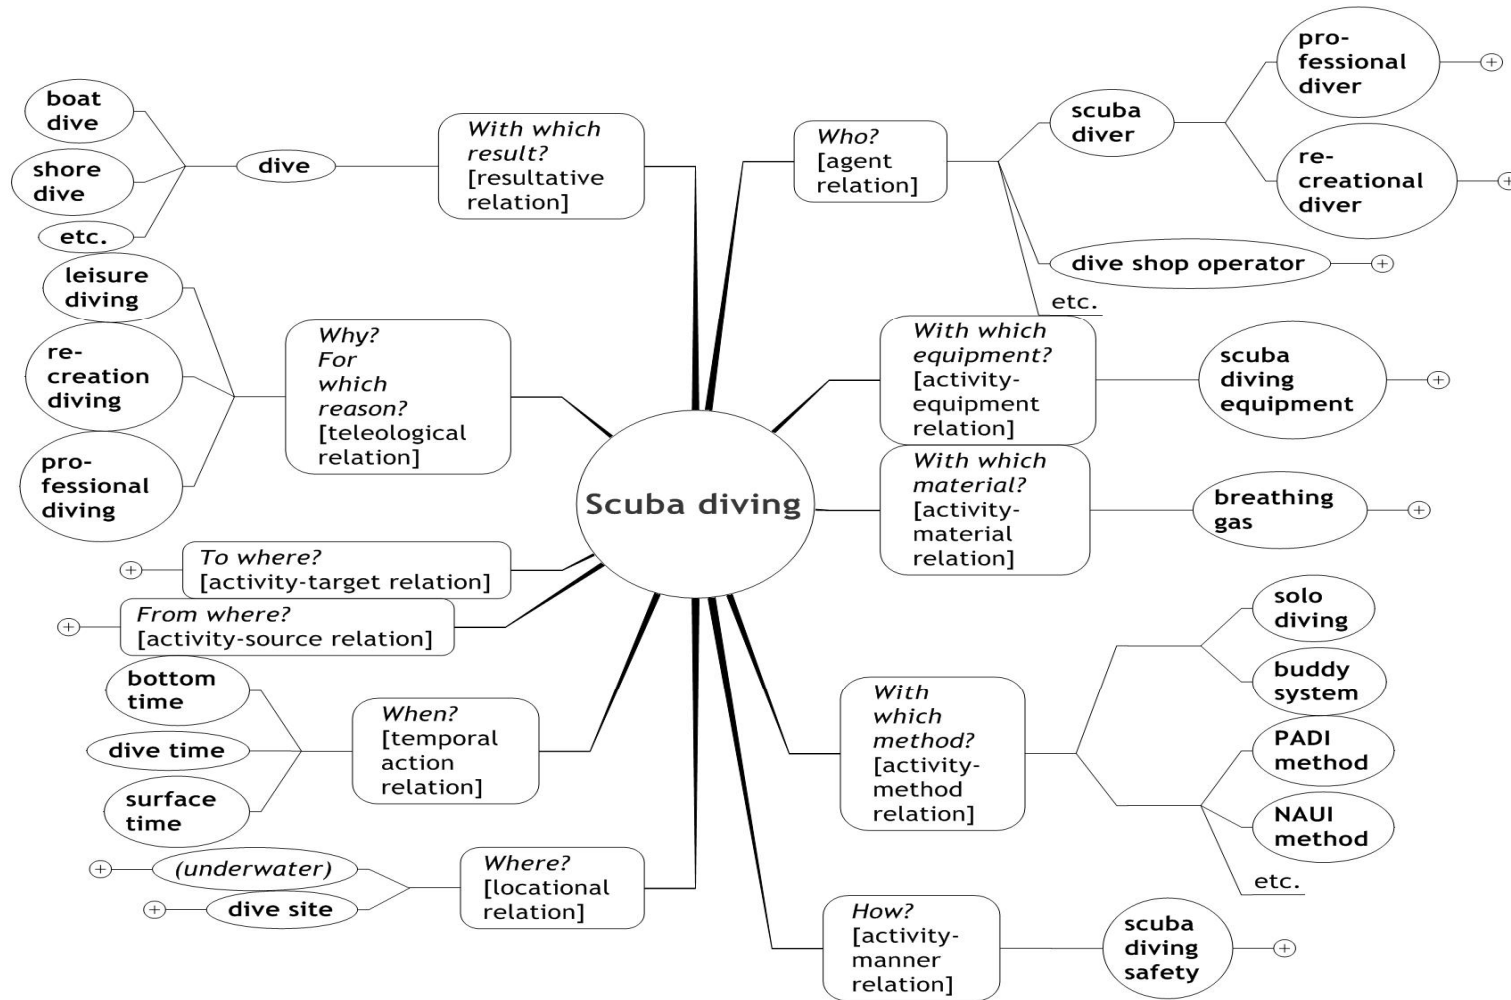

# Mind mapping

# Concept mapping

# 3. Satellite model/satellite system

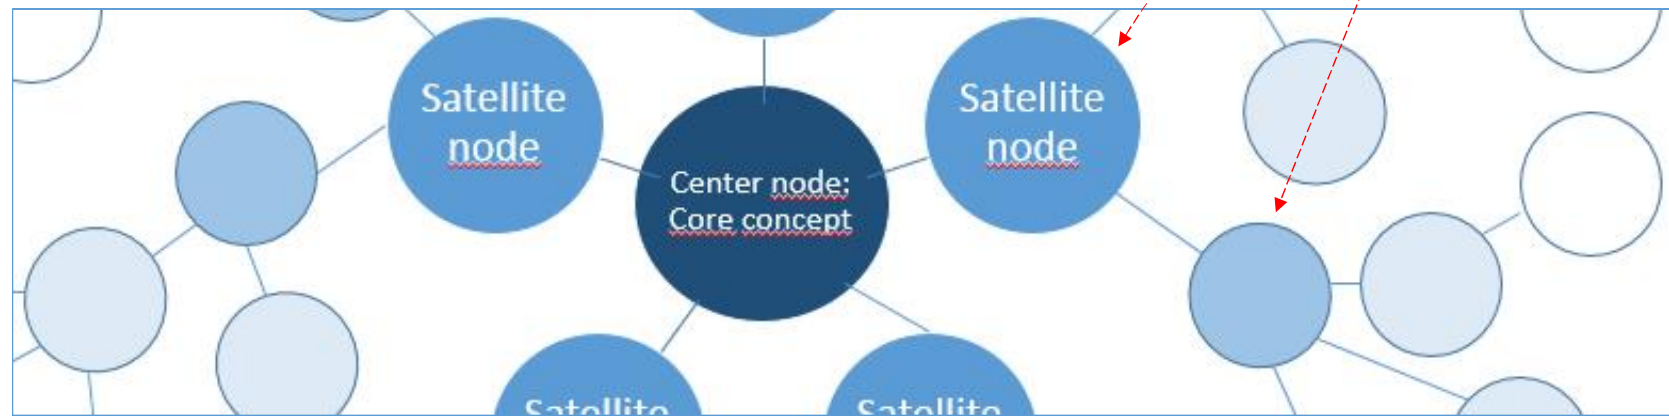

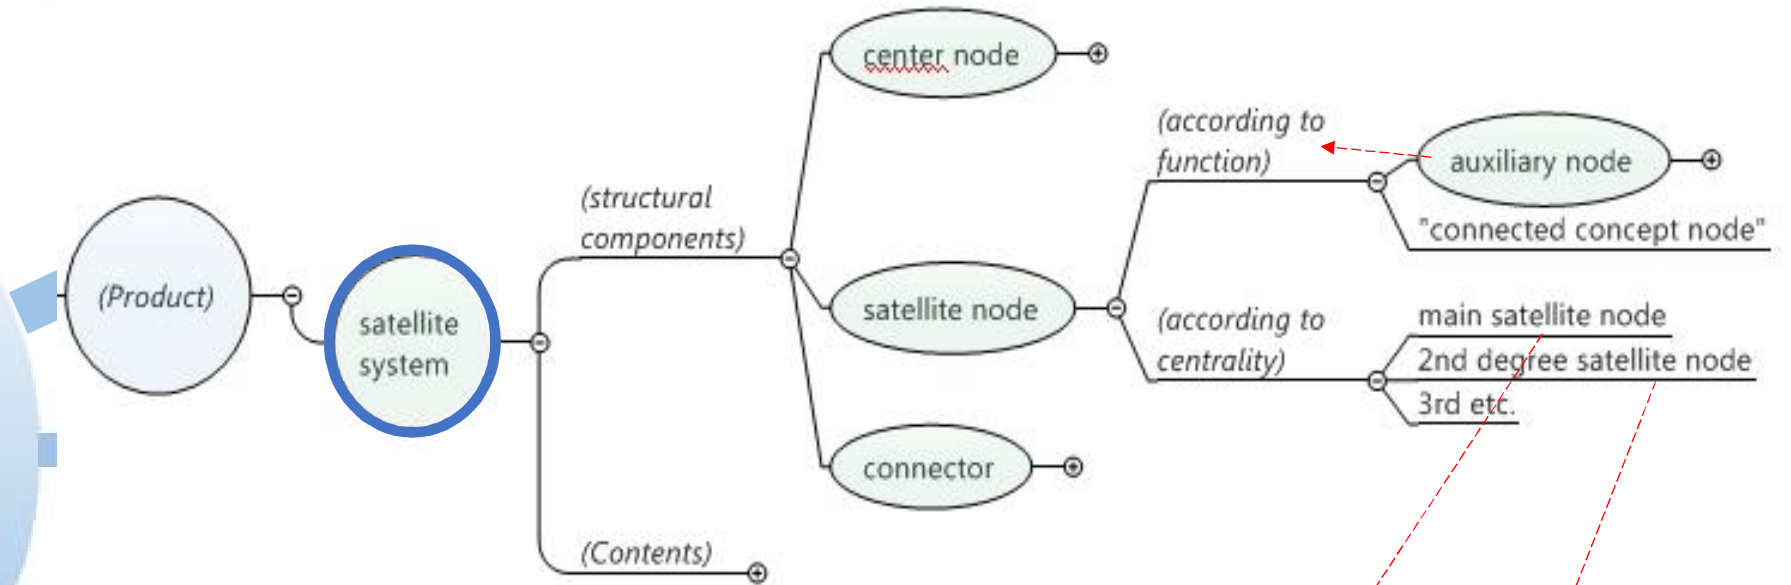

# Comparison with related visualization methods

	Mind mapping	Concept mapping	Satellite model
Origin	education	Education	terminology
Who	Tony Buzan	Joseph D. Novak	AN
Formality	free association	formal, structured	structured, flexible
Form	radial diagram, organic structure, visual means for remembering (pictures, thickness of the lines, colors etc.)	top-down diagram, boxes	radial diagram or all the branches on the same side
The most important concept or theme	in the middle	on the top	in the middle
Relationship expressions	single word notations	phrases	relation names, phrases, questions, concept roles, etc.
Relationship expression location	on lines (along)	on lines (across)	in auxiliary nodes; color coding of lines, on lines etc.
Cross-referencing	welcomed	important	not recommended; a concept can be placed in several locations
Relation knowledge	learned knowledge	analyzed from the text	analyzed from sources, based on a set of concept relation and system models

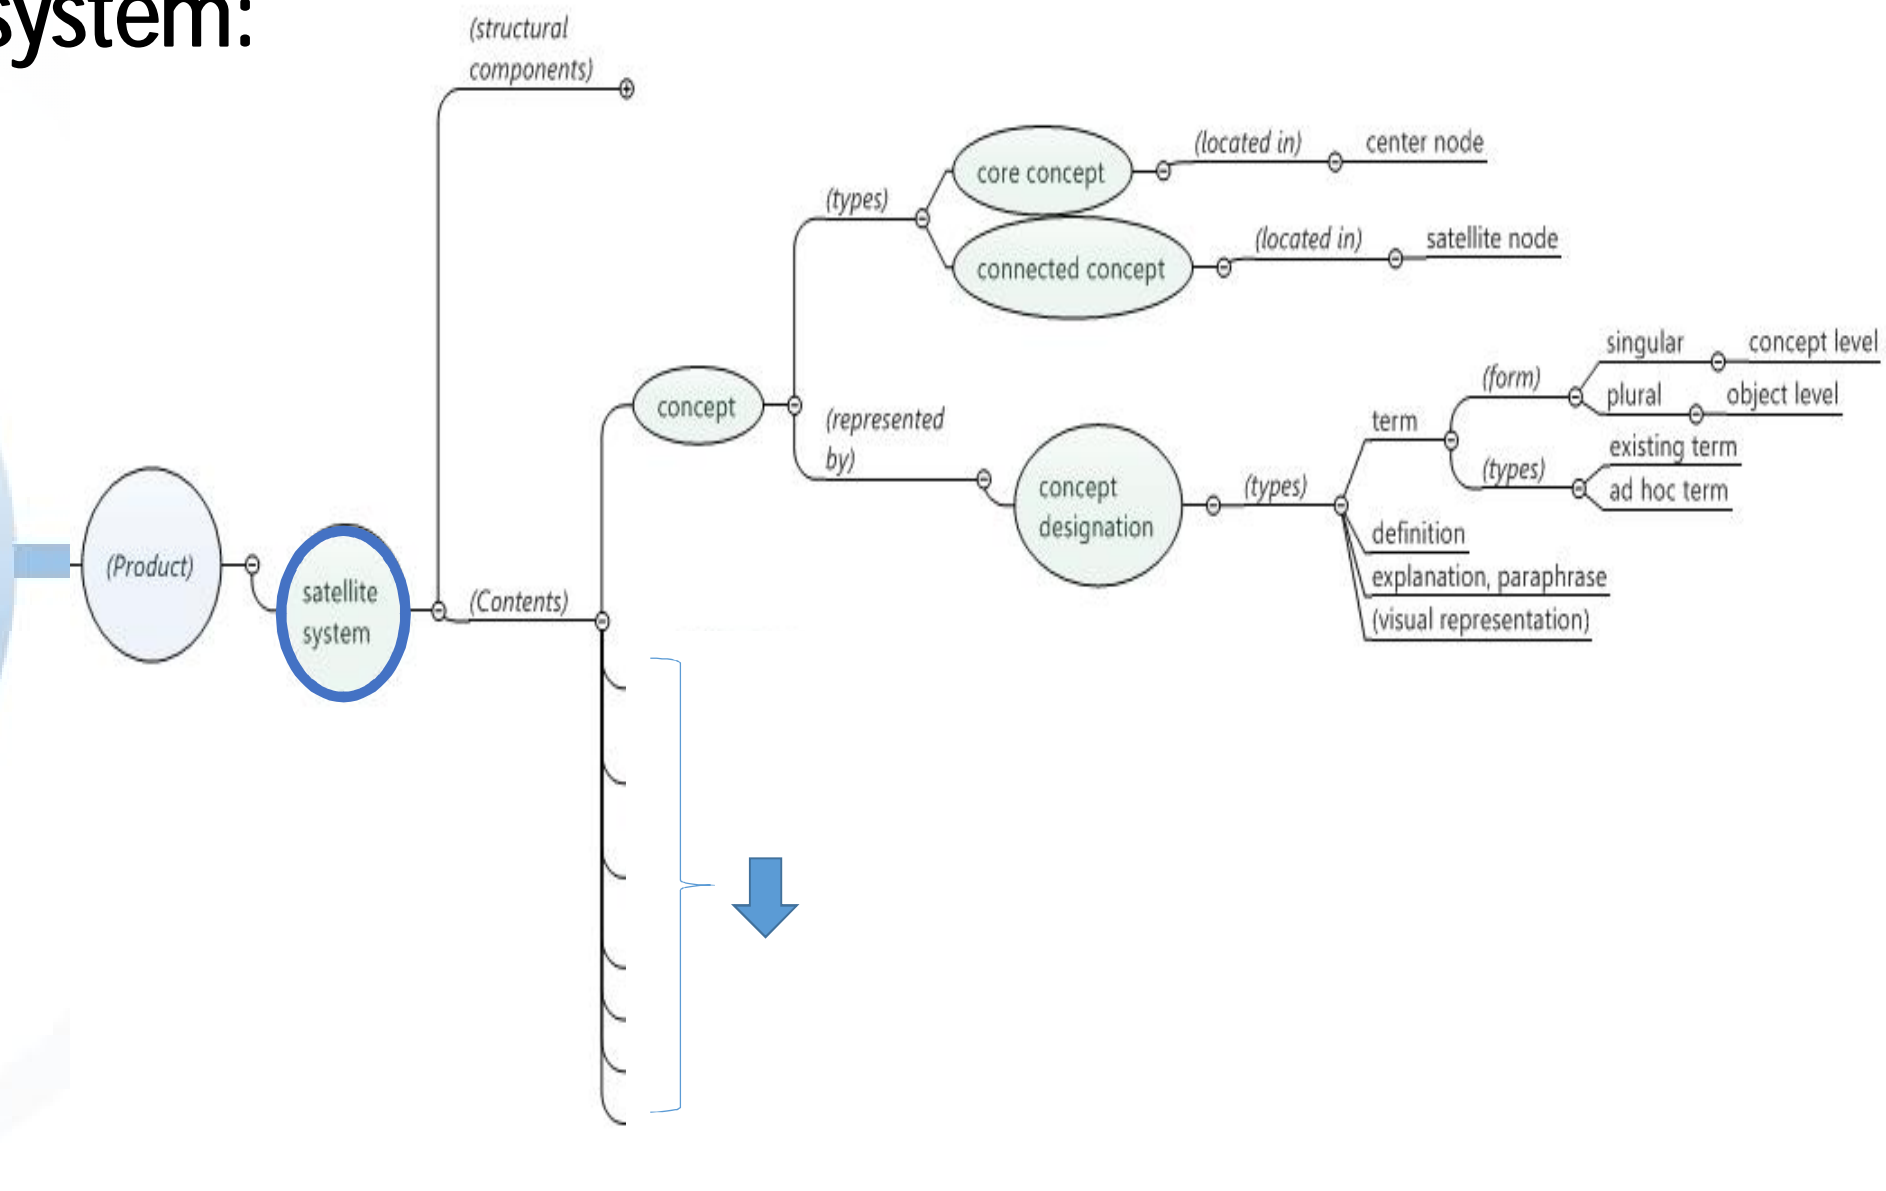

# Satellite system: structure

## Satellite model

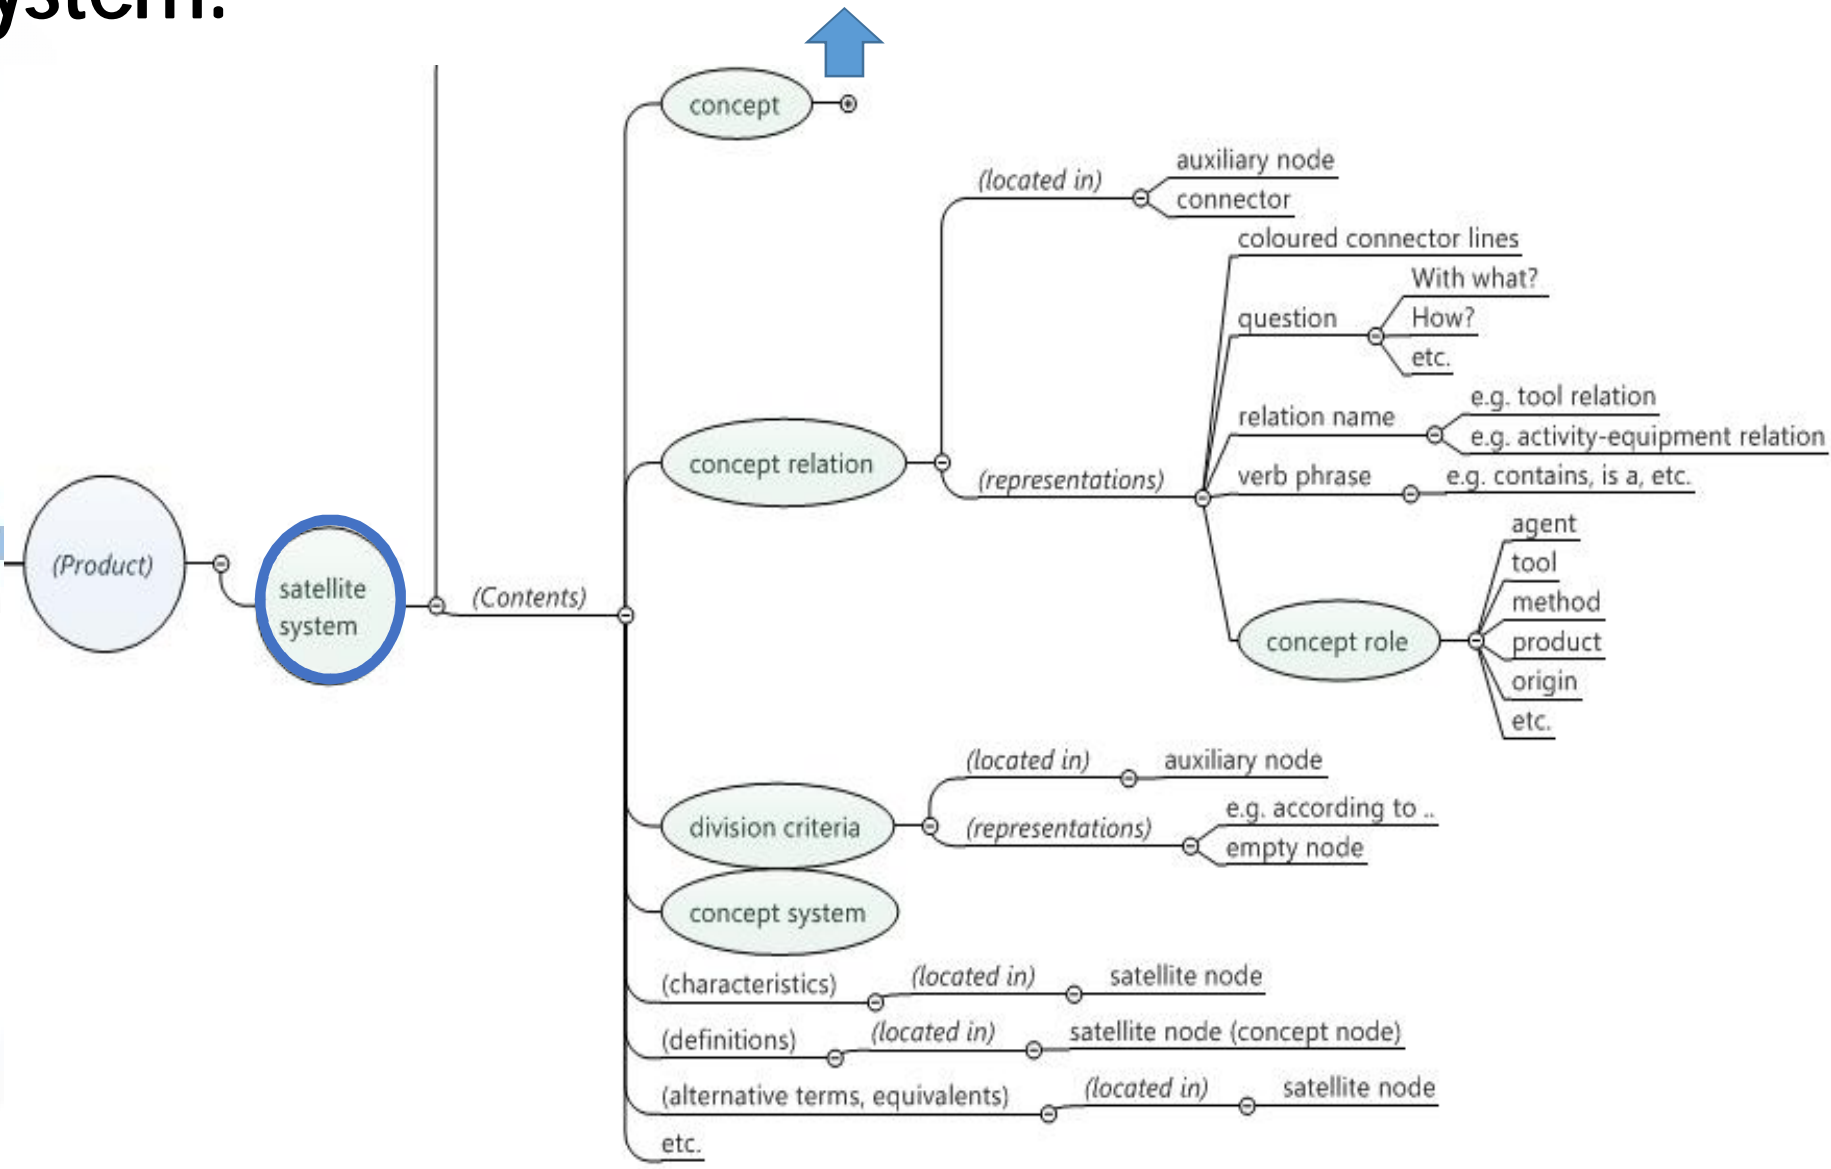

# Satellite system: content 1

## Satellite model

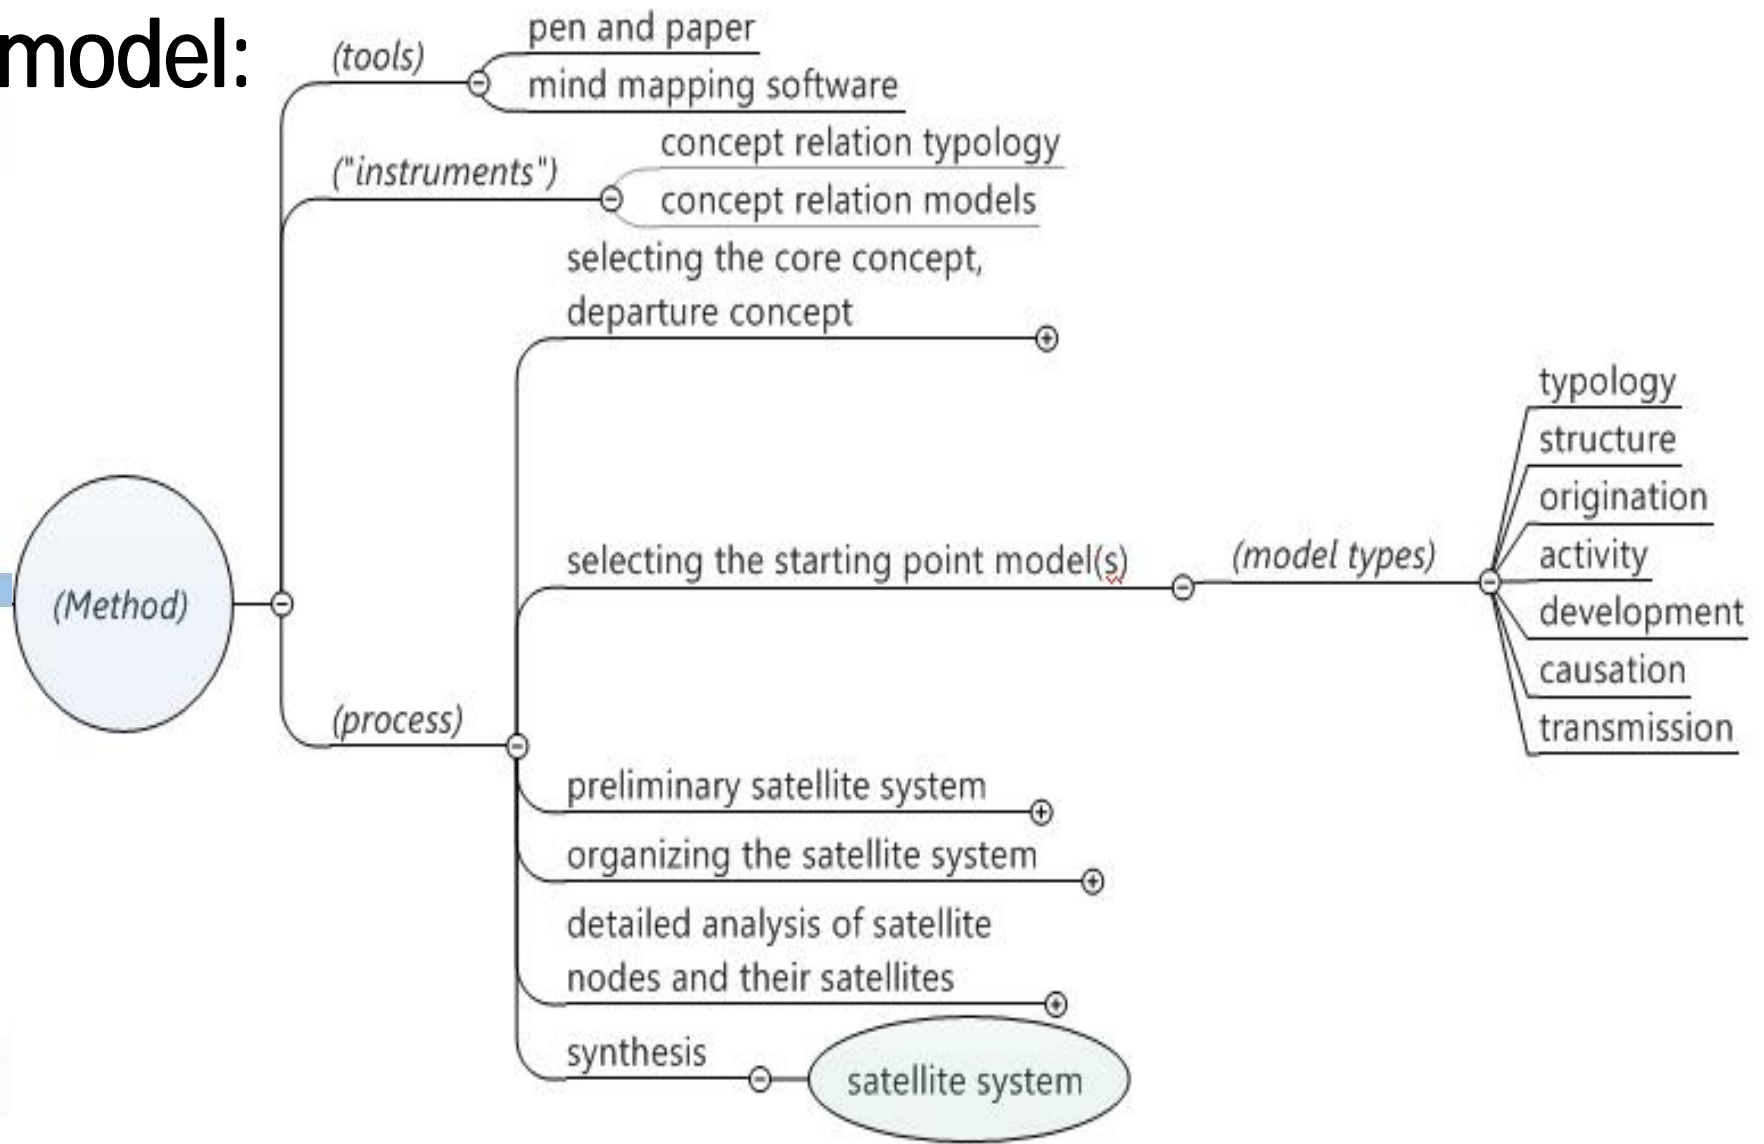

# Satellite system: content 2

## Satellite model

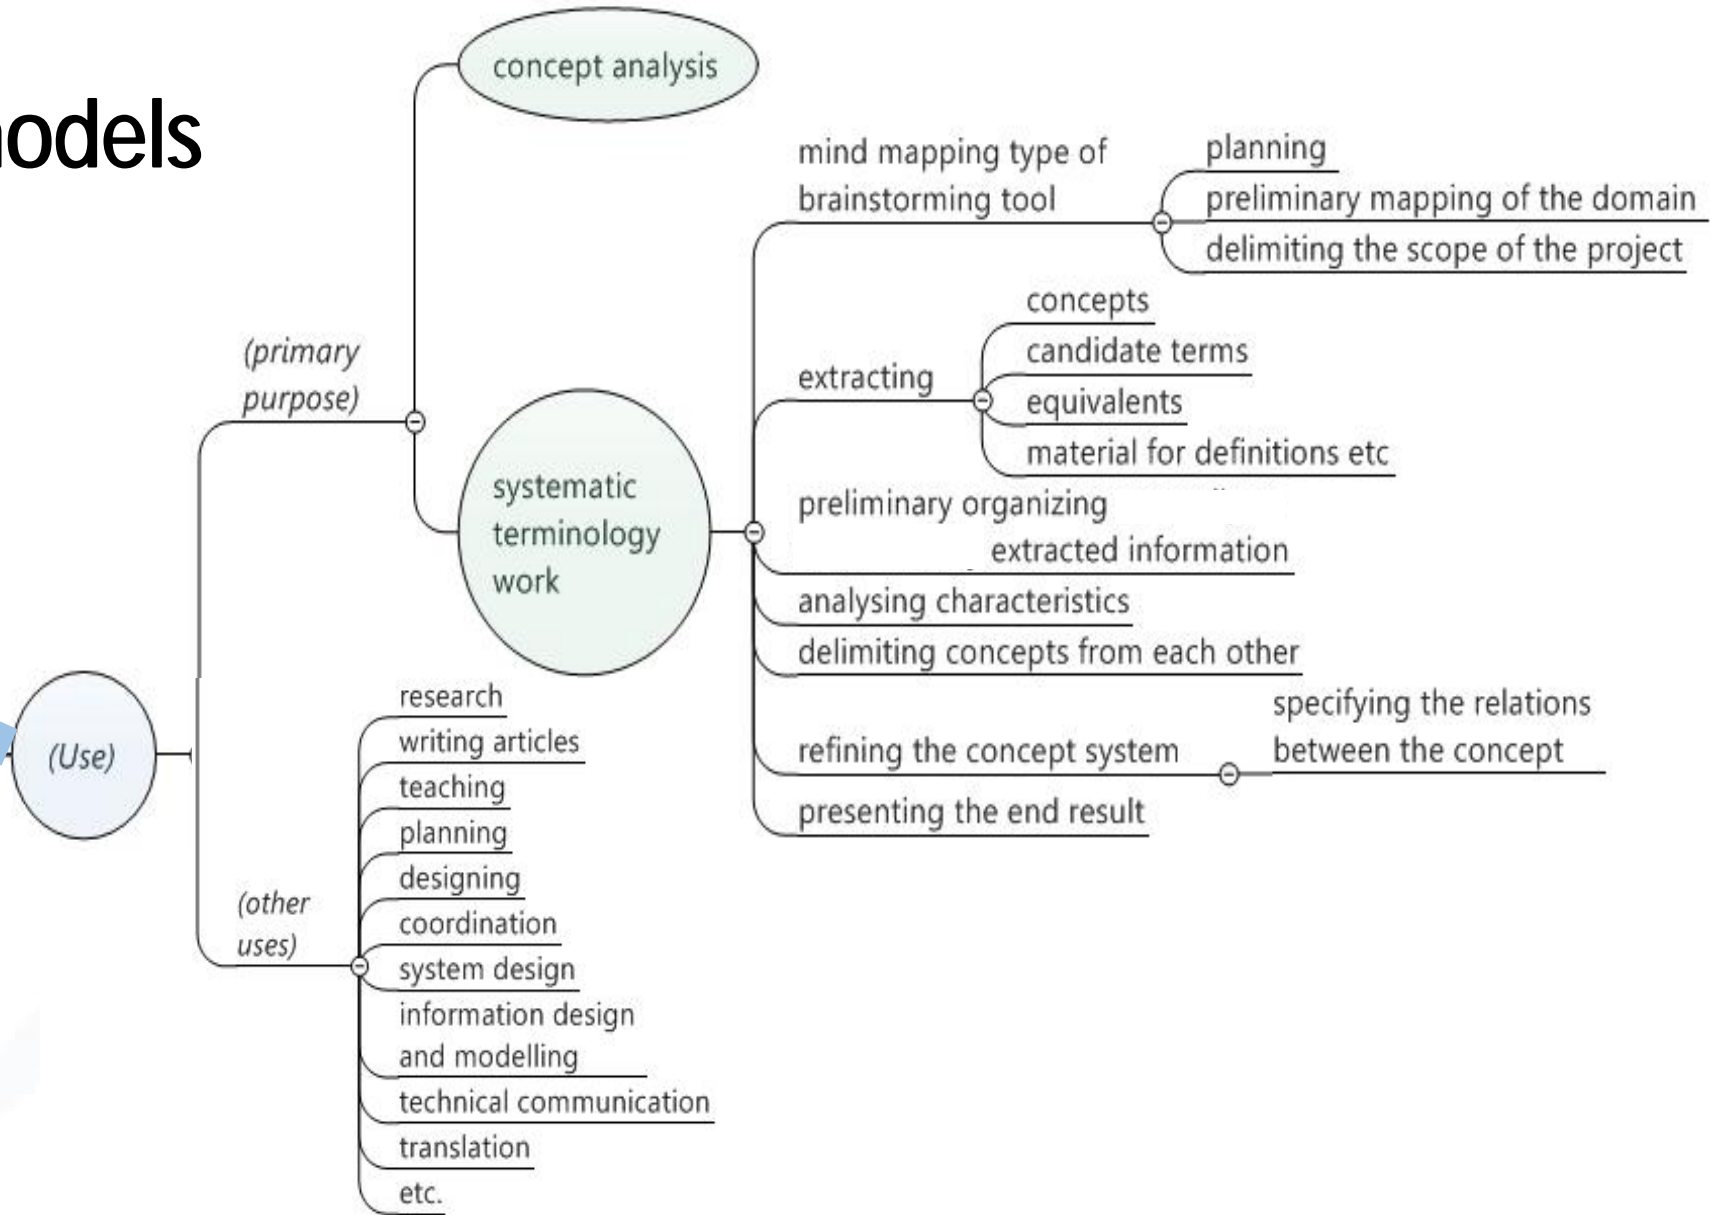

# 4. Satellite model: method

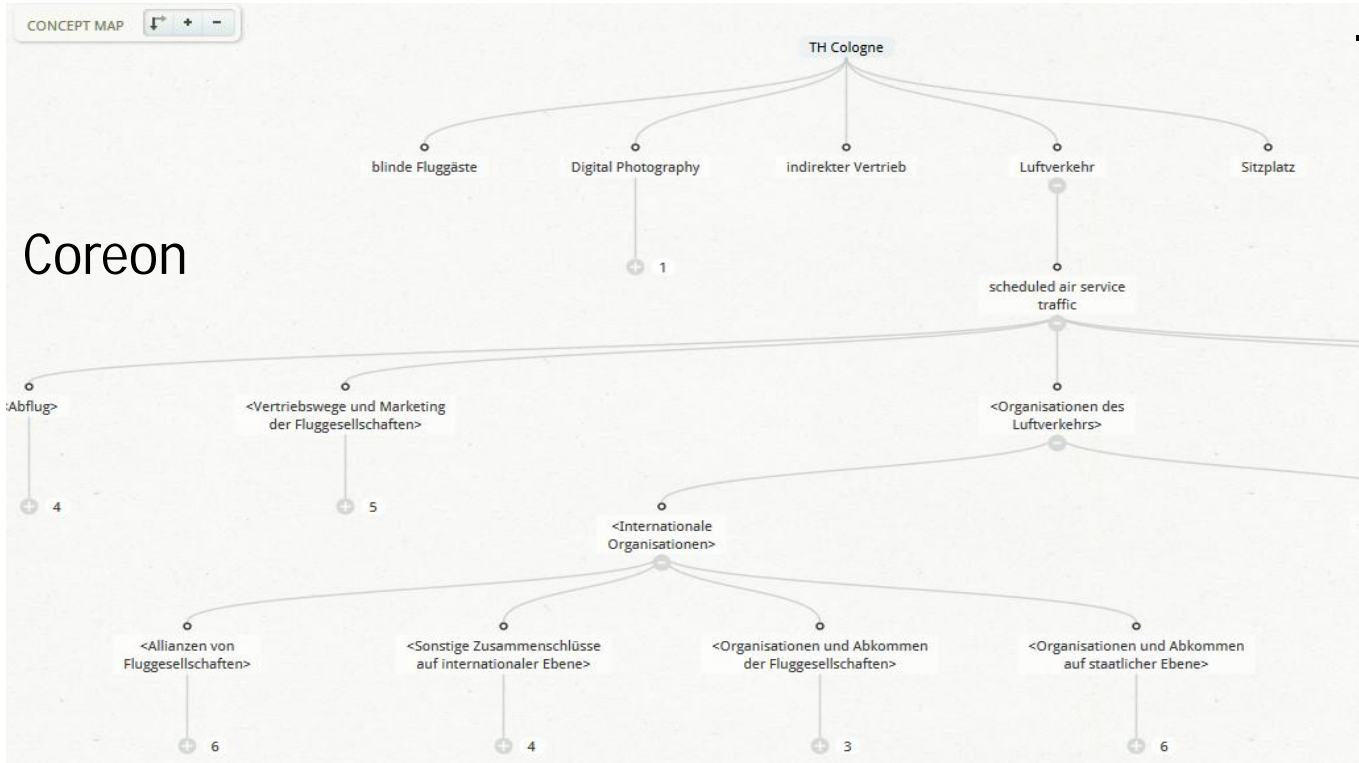

Satellite  
model

# 5. Uses of satellite models

## Satellite model
